Corona Treater Components (Modular System) for Printing, amination

For Improving Surface Tension to Achieve Good Lamination Good Printing
Corona Components are Available in Different Capacities from 100VA to 2500VA

- Simple Modular Design, Easy Fault Finding
- For OEMs & Replacing Old Corona Panel
- High Frequency Corona Treatment
- Available in 100VA, 200VA, 600VA, 1200VA, 2400VA

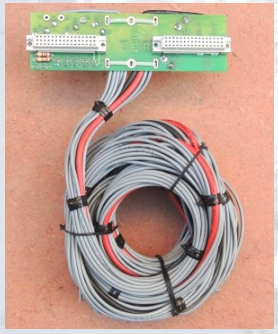

Corona Treater Panel

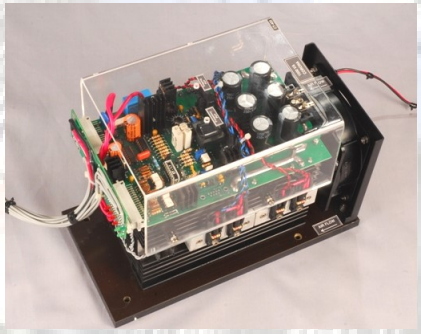

Corona Roller Station

Internal Wiring of Corona Panel

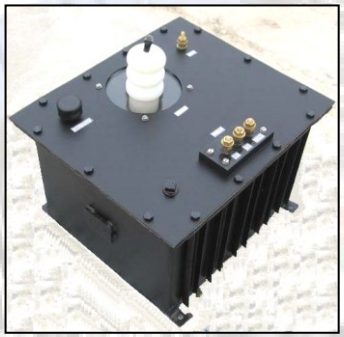

Modular Connector with cable harness

1500VA Electronic Module

Speed Switch PCB with Transformer

1500VA HT Transformer (High Voltage, High Frequency)

Corona Auto ON/OFF
